

IT'S TIME FOR A CHANGE!

Reimagine and transform your vending experience like never before. Vending has stepped up to the plate. Will you?

Convenience food vs health goals. Traditionally, it's a trade-off. But there's no compromise when it comes to Fitness and Gym Vending by AVS. Specifically tailored for the Health and Fitness Industry, our machines are designed to support members' personal health and fitness goals, while allowing Clubs to easily boost sales and profitability without jeopardizing their core values.

✓ **24/7 Service**

Our range of Fitness and Gym Vending Machines allow clubs to declutter their reception area while simultaneously freeing up their staff to focus on member services instead of retailing protein bars and beverages. Products are available 24/7, time to manage stock is reduced, stock control is substantially improved and profitability increases.

✓ **Customised for you!**

All Fitness and Gym Vending Machines are tailored to your own Club needs. Your machine can be custom branded, and the configuration customized to vend a range of products that satisfy all tastes, including pre-prepared meals, such as those from Youfoodz and My Muscle Chef, protein bars/cookies, pre/post workout sachets/ beverages, protein shakes, energy balls, energy drinks and much more!

✓ **Lockers**

Expand your product range and feature bulkier items previously limited to over-the-counter sales, including a vast range of supplements and protein. Lockers are a fabulous opportunity to sell bulkier, high value products when the outlet is unattended, making them perfect for 24/7 layout gyms. Further, our lockers have an amazing return on investment as the typical products sold in these lockers have a high dollar margin, thereby reducing the payback period.

✓ Flexible Rental Plans

You can buy your equipment outright, or we offer Flexible Rental/Finance plans that allow you to either upgrade to the latest model or retain your equipment at the end of the term. Our Flexible Rental Plans allow you to expense your purchase and manage your cashflow. The application process is short and painless, and our finance provider is experienced in funding Fitness and Gym centres.

✓ Product Suppliers

We have an excellent relationship with a one stop product supplier for all your Fitness and Gym Vending Machine needs. We work together to customise your offering and product planograms that reflect your agreed offering. Our solution if required includes new product supply accounts to make ordering easy.

✓ Payment Systems and Reporting

Members can pay for their purchases using all acceptable payment methods including Cash, Credit Card/Tap N Go, Digital Wallets and QR Code. Cloud based back end reporting provides access to sales, margin and inventory reports as well as pick lists and many other reports to enable you to manage your vending machine.

Why AVS

AVS has the most experienced and reputable vending team in Australia and has exclusive rights to distribute many of the world's leading vending machine brands.

AVS has a proud history of doing business the right way; treating people fairly; dealing honestly and ethically with customers, suppliers and stakeholder; and working hard to meet or exceed our customers' expectations. We have built our business on a very good reputation for reliable, quality equipment and quality service – before and after. Our equipment pricing is competitive and this together with our unique understanding of your business allows us to tailor a vending solution that works and provides the best return on investment.

FITNESS AND GYM VENDING COMBO MACHINES

DISCOVER LIMITLESS POTENTIAL

The CV Plus Series is a perfect vending machine for the fitness and gym industry.

Product merchandising is enhanced due to a large glass window, improved LED lighting and an easy-to-use interface for selection and payment of products. It is one of our most flexible and low maintenance vending machines – perfect for the time poor fitness industry.

✔ Members App

Members can pay for products using cash, credit card, tap n go, digital wallets or QR codes.

No Wallet? No Problem. Introducing the Members App and QR Code. The Members App is an app that allows registered members to scan a QR code and pay for their products. The Members App can work in conjunction with a credit card reader or without, thereby reducing acquisition costs. The Members App offers clubs the ability to track transaction patterns and communicate with their members through the app. It can be useful for loyalty programs designed to encourage greater interaction with your Club, such as rewarding frequent visitors or new members. These benefits can be customised to your clubs specific needs and objectives.
